HEALTH AND SAFETY POLICY

Legra is dedicated to conducting business activities in a way that will ensure a healthy and safe environment for all customers, employees, contractors and visitors.

We will comply with the relevant legislative requirements, which apply to health and safety and environmental protection.

The highest standards will be achieved only by every employee being involved in the development, application and monitoring of safe systems of work. Every employee will be provided with the opportunity for this involvement.

People at every level in our organisation have an obligation to make sound health and safety practise an integral part of all their workplace activities.
